

We're planning for growth. Are you?

As one of Canada's best and largest heavy civil construction firms, Sigfusson Northern tackles some of Canada's largest mining, energy and infrastructure projects. Forging trails into the country's harshest and most remote northern terrain is all in a day's work.

Our team members work hard, embrace a challenge and appreciate a company that prioritizes innovation and technology alongside health and safety. Add a comprehensive benefits package and competitive wages and you have an outstanding place to work, grow and prosper.

Ready to build something big?

- Current Positions:**
