

"Things went downhill when I was in CFS care. I didn't want to go out or do anything. But, the program I entered helped me move forward and get used to job skills. I'm feeling ready and mentally prepared to work now."

Robert (LITE-supported job program at Marymount)

"You run one of the most sensible charities I have the honor to support. As I see it, you build on the existing strengths of the community to enable it to grow even stronger."

Donor since 1999

Yearly LITE Impact:

25

Organizations working together in partnership with LITE—creating economic dignity, training and employment.

150

LITE-supported activities that help create a strong social enterprise movement in Winnipeg.

300-350

Job experiences that transform individuals, families, and communities.

People without jobs want a chance, not charity.

Getting a job when you've never had one has a ripple effect. You can pay the rent, buy fresh food for your family, feel better about yourself, improve relationships and contribute to the economy. One job for one person impacts many. **Make a gift to LITE today to create a thriving community for all of us.**

For some, getting a job is like trying to win a race from far behind the starting line.

We all win when someone has the opportunity to catch up.

LITE gets people working through these activities:

No one succeeds on their own.

Those of us who grew up in a stable family, had a community of support with positive role models, never experienced poverty or discrimination, had the fortune of good health, and lived in a peaceful country got a big head start in life. Not everyone is as lucky.

Alongside our partner organizations, LITE works to shatter the barriers preventing individuals from gaining the skills, connections, and experience needed to become employed.

Volunteer Experience

Our volunteer opportunities get participants job-ready gaining experience in getting to work on time, cooperating with others, and managing responsibility.

Collaboration

We support and award grants to unique projects that make employment possible for those who need a chance.

Social Enterprise Development

We support social enterprises to flourish through a variety of activities because they create inclusive employment opportunities that benefit individuals and Winnipeg as a whole.
